## NOTICE.

---

THE present Catalogue comprises the whole of the books forming the General or Miscellaneous Library of the late Mr. Choate, and collected by him for his immediate use.

The late owner, it is well known, was one of the most indefatigable and earnest students in the State, if not in the whole country; and his constant desire to have all the necessary resources for his pursuit in his own library resulted in the present collection.

THE LIBRARY is one of the largest and most valuable private collections in New England; and may truly be called a *working library*, having within itself all the necessary literary materials for the general student that his reading can demand. There are, however, many choice works, which the collector will prize; many valuable works of reference also, not often found outside of public institutions.

The collection has been forming during the past thirty years, and at a cost of nearly \$ 40,000; and though many of the works might now be obtained at a less price, yet the larger number are worth as much, or more, than when first purchased, having become scarce, and many being entirely out of print. The Library contains works on General History, Ancient and Modern; Biography and Memoirs; Antiquities; Philology; Ecclesiastical History; Theology and Biblical Criticism; the Greek and Latin Classics, and Commentaries; Literary History; Bibliography; Periodical Literature; Encyclopædias; Lexicons; Parliamentary History and Debates; Natural History and the Sciences; Poetry and the Drama; the Fine Arts, Belles Lettres, &c. The whole forming one of the most useful and varied collections of books ever sold in this city.

The books are in fine condition; most of them substantially, and many of them elegantly, bound.
